

## How to Make a Turnstile Quilt Block (free tutorial from polkadotchair.com)

### Supplies

9 x 9 square of fabric cut from print fabric—**COLOR SHOULD READ IN PINKS**

9 x 9 square of fabric cut from background fabric—**EITHER WHITE SOLID OR TONE-ON-TONE WHITE**

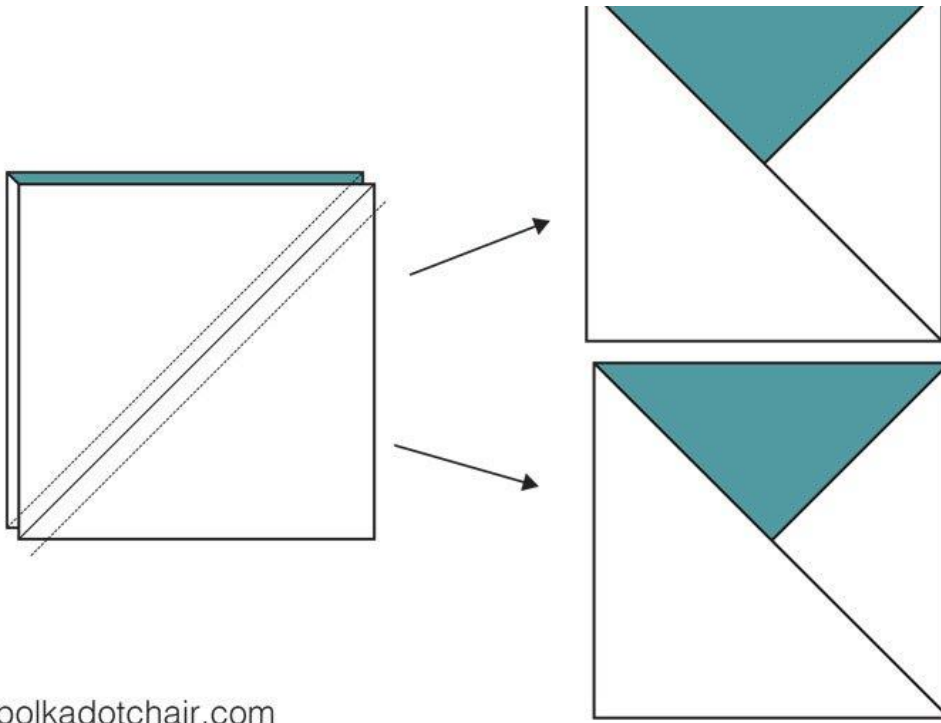

Two 8 1/2" x 8 1/2" squares of fabric cut from background fabric

### Step Two: Add Solid Fabric

Draw a diagonal line on the wrong side of the 8 1/2" squares cut from your background fabric.

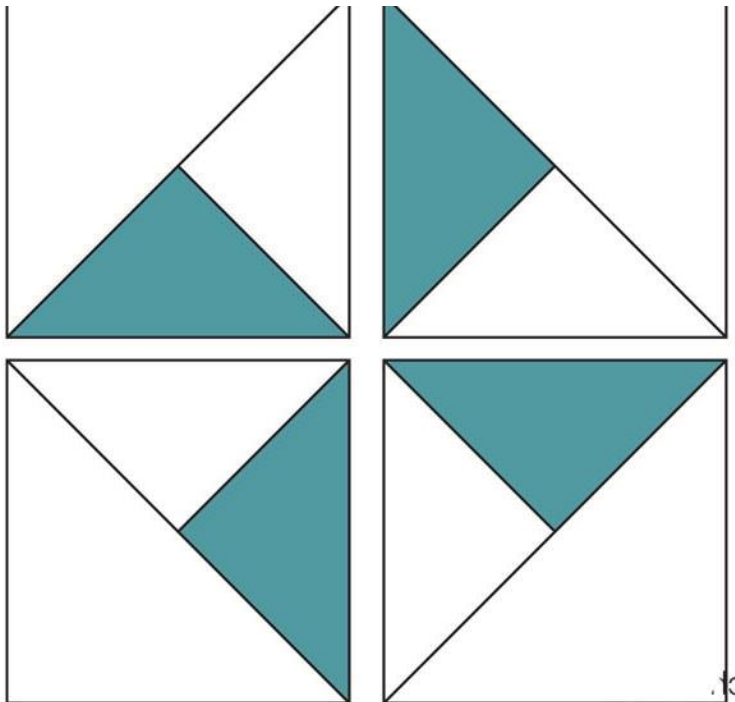

Layer one square on top of one of the sewn HSTs so that the diagonal lines face opposite directions. In the above illustration, I've adjusted the opacity of the top fabric a bit so you can see how the squares line up on top of each other.

polkadotchair.com

Stitch 1/4" on each side of the line you drew. Cut along the line and square up the blocks to 8" x 8". Repeat for the other HST and background fabric.

### Step Three: Lay the Pieces Out and Construct the Block

You will now have four blocks. Line up as shown in the diagram above.

Stitch the squares together in the top row, then stitch the squares together in the bottom row. Press the seams and stitch two rows together.

Trim to 15 1/2" x 15 1/2".
